Why are initial setup and registration required?

For convenient use

- To automatically set the appropriate time for delivering messages to you, the HOMMIK app calculates and sets your time zone based on your location data. Therefore, we ask that you **grant permission to access your location information once**.
- While we generally do not send push notifications as part of our standard operations, we ask that you **allow push notifications** so that you can receive them when necessary.

*After registration, You can change them from device settings.

Use of services tailored to you

The HOMMIK app is designed with your privacy in mind and does not store sensitive personal information. By registering your basic information, you gain access to services and information **tailored specifically to you**. Please enjoy a personalized experience.

Register easily and securely.

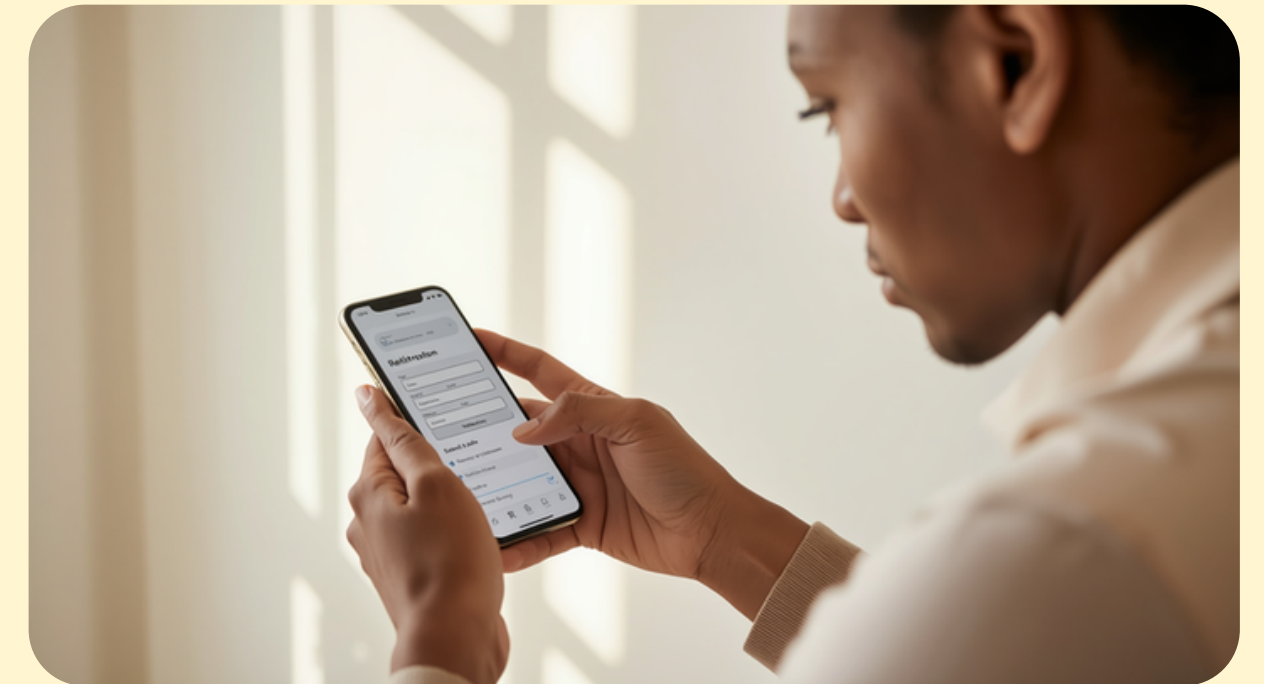

You can register easily and safely, so please rest assured.

Your personal information is fully protected.

Tips for a smooth initial registration process

To ensure a smooth initial registration for the HOMMIK app, keep a few key points in mind. Following these tips will help ensure a safe and seamless registration experience.

- Please perform the initial setup in a location with a stable network connection.
- Use the same Google or Apple account that is already active on your smartphone for logging in.
- When prompted for location access, select "Approximate location" and "Allow once." (You can change this later in your device settings.)
- For notification settings, select "Allow." *HOMMIK rarely sends push notifications. (You can change this later in your device settings.)

Initial registration process

Manager

After initial registration : Opening the app

After initial registration, opening the app will immediately display the "Today's Message" screen.

Messages are delivered once a day.

* If you have granted location access and your time zone is set, your avatar will generate and deliver the message during the late-night to early-morning hours in your time zone.

* If you have not granted location access and your time zone is not set, **messages will be delivered based on Japan Standard Time.**

About support after registration
